

Instrict Privacy Policy

Effective date: August 12, 2026

Instrict ("we", "us", "our") operates a campus marketplace and delivery platform connecting students, vendors, and riders at University of Ibadan. This Privacy Policy explains what personal data we collect, how we use it, who we share it with, and the rights you have over it. It applies to everyone who uses the Instrict app or website, whether as a student/customer, vendor, rider, or admin ("you", "users").

We process personal data in line with the Nigeria Data Protection Act 2023 and the Nigeria Data Protection Regulation (NDPR). By creating an account or using Instrict, you agree to the practices described here.

1. Information We Collect

1.1 Information you provide directly

- Account details: full name, phone number, email address, and password (or Google sign-in credentials).
- Role-specific information: student hall/room or delivery address; vendor business name, business address, and menu/catalog details; rider vehicle type and vehicle documents where applicable.
- Identity and verification data: for riders, this includes vehicle registration and, where the vehicle is motorized, a valid driver's license.
- Payment and payout details: bank account name, number, and bank code, submitted when a vendor or rider requests a withdrawal. We do not store your card number or banking PIN — card payments are handled directly by our payment processor, Paystack.
- Communications: messages, support requests, and any content you submit through community posts, comments, or likes on the platform.
- Order content: items ordered, delivery instructions, and errand descriptions.

1.2 Information collected automatically

- Device and usage data: device type, operating system, app version, and general usage patterns (e.g. pages viewed, actions taken) used to keep the app working and to improve it.
- Push notification tokens: a device identifier (via Firebase Cloud Messaging) used to deliver order updates, delivery status, and platform announcements to your device.
- Location data: general delivery-zone information (e.g. hall or campus zone) needed to calculate delivery fees and assign orders. We do not continuously track your precise GPS location in the background.
- Transaction metadata: order history, timestamps, order status, and wallet/transaction records.

1.3 Information from third parties

- Paystack: confirmation of payment status and limited transaction metadata needed to mark an order as paid and to process payouts.
- Firebase (Google): authentication and push-notification delivery services.

2. How We Use Your Information

We use personal data to:

- Create and manage your account and verify your identity where required (e.g. rider vehicle/license checks).
- Process orders and errands, calculate delivery fees based on your campus zone, and route orders to the right vendor and rider.

- Process payments and payouts through Paystack, and maintain accurate wallet balances (including held/escrow and withdrawable balances) for vendors and riders.
- Send transactional notifications — new order alerts, order-ready alerts, delivery confirmations — and, where you have not opted out, platform announcements.
- Investigate disputes, prevent fraud or platform abuse, and enforce our Terms of Service, including account suspension where necessary.
- Maintain and improve the reliability, security, and usability of the platform.
- Comply with applicable legal and regulatory obligations.

3. How We Share Your Information

We do not sell your personal data. We share limited information only as needed to operate the platform:

- With vendors: your name, delivery address/hall, and order contents, so they can prepare and hand off your order.
- With riders: pickup and drop-off details (vendor location, your delivery address, and contact phone number) needed to complete delivery.
- With Paystack: the information required to process a payment or payout, governed by Paystack's own privacy policy.
- With Firebase/Google: device tokens and account identifiers needed to deliver authentication and push notifications.
- With Instrict administrators: for support, dispute resolution, fraud prevention, and account status (including suspension) review.
- Where required by law, regulation, or a valid legal process, or to protect the rights, safety, or property of Instrict, our users, or the public.

4. Data Storage and Security

Your data is stored using Supabase (PostgreSQL) with row-level security policies that restrict which users and roles can access which records. Payment credentials are handled by Paystack and are never stored on our servers in raw form. We take reasonable technical and organizational measures to protect your data, but no system is completely secure, and we cannot guarantee absolute security.

We retain personal data for as long as your account is active and for a reasonable period afterward to comply with legal, tax, accounting, or dispute-resolution obligations, after which it is deleted or anonymized.

5. Your Rights

Subject to applicable law, you have the right to:

- Access the personal data we hold about you.
- Request correction of inaccurate or incomplete data.
- Request deletion of your account and associated personal data, subject to our legal and legitimate business retention needs (e.g. completed transaction records).
- Withdraw consent to non-essential communications at any time.
- Lodge a complaint with the Nigeria Data Protection Commission (NDPC) if you believe your data has been mishandled.

To exercise any of these rights, contact us using the details in Section 9.

6. Account Suspension and Data

If your account is suspended for a policy or safety violation, we retain the underlying order, wallet, and account data associated with that suspension for record-keeping, dispute resolution, and legal compliance, even while your access to the platform is restricted.

7. Children's Privacy

Instrict is intended for users of university (tertiary institution) age and older. We do not knowingly collect personal data from children. If we learn that we have collected data from a child without appropriate consent, we will delete it.

8. Changes to This Policy

We may update this Privacy Policy from time to time as Instrict grows or as legal requirements change. We will update the effective date above and, for material changes, notify you through the app.

9. Contact Us

If you have questions about this Privacy Policy or how your data is handled, contact us at:

- Email: instrictmarketplace@gmail.com
- In-app: Help/Support button available in the student, vendor, and rider portals.
