

Instrict Terms of Service

Effective date: August 12, 2026

These Terms of Service ("Terms") govern your use of Instrict, a campus marketplace and delivery platform currently operating at University of Ibadan. Instrict connects three types of users — students (customers), vendors, and riders — and is administered by Instrict platform admins. By creating an account or using the app, you agree to these Terms.

If you do not agree to these Terms, please do not use Instrict.

1. Accounts and Eligibility

- You must provide accurate information when creating an account, including a valid phone number used for verification.
- You are responsible for keeping your login credentials secure and for all activity under your account.
- Instrict currently operates at University of Ibadan only. Delivery and order availability are limited to supported campus zones.
- Vendors and riders must complete the applicable onboarding and verification steps (e.g. business details for vendors; vehicle type and, for motorized vehicles, a valid driver's license for riders) before going live on the platform.

2. How Orders Work

- Students browse vendor stores and place orders, or submit errand requests, through the app.
- Orders are only created and sent to a vendor after payment has been successfully confirmed. Payment is processed through Paystack; Instrict does not store your card details.
- Delivery fees are calculated based on your registered campus zone (e.g. hall) and the applicable zone fee, or a campus default fee where no specific zone fee is set.
- Once a vendor confirms an order is ready, an available rider is notified to pick up and deliver it.
- Order and delivery status updates are sent via push notification. You can also track order status in the app.

3. Payments, Fees, and Commission

Instrict charges the following fees to keep the platform running: a service charge on student orders, a service charge on errand requests, a commission on vendor sales, and a commission on rider deliveries. Applicable rates are shown at checkout (for students) and in the vendor/rider dashboards before you accept an order.

3.1 Vendor and rider wallets

- Vendor and rider earnings are tracked in an in-app wallet with two balances: a held (escrow) balance for funds from recently completed orders, and a withdrawable balance for funds that have cleared and are available for payout.
- Every transaction affecting your wallet is recorded in your transaction history.
- Withdrawals are paid out via Paystack Transfer to the bank account you provide, and may be subject to admin review before approval.
- Instrict is not a bank and does not guarantee investment or interest on wallet balances; wallet balances represent funds owed to you for platform activity.

4. Vendor Terms

- Vendors are responsible for the accuracy of their menu/catalog, pricing, stock levels, and preparation times.
- Vendors must fulfill confirmed orders promptly and accurately. Repeated cancellations, unavailable stock, or failure to fulfill orders may result in warnings or account suspension.
- Vendors are solely responsible for the quality, safety, and legality of the goods they list and sell, including compliance with any applicable food-safety or trade regulations.
- Commission is deducted automatically from each completed order before funds are credited to the vendor's wallet.

5. Rider Terms

- Riders must accurately represent their vehicle type during onboarding; a valid driver's license is required for motorized vehicles.
- Riders are independent participants on the platform, not employees of Instrict, and are responsible for their own conduct, safety, and compliance with traffic and road-use laws while making deliveries.
- Riders must handle orders and errands with reasonable care and deliver them to the address or recipient specified.
- Commission is deducted automatically from each completed delivery before funds are credited to the rider's wallet.

6. Account Suspension

Instrict may suspend a student, vendor, or rider account where there is reasonable cause, including but not limited to fraud, abuse, repeated order or delivery failures, safety concerns, or violation of these Terms.

- A suspended vendor cannot manage stores or process new orders. A suspended rider cannot go online to accept deliveries. A suspended student's ability to place new orders may be restricted.
- Suspension does not erase amounts already owed to you in your wallet; those remain subject to Instrict's normal payout process unless the suspension relates to fraud or a wallet-affecting violation, in which case funds may be held pending investigation.
- You may contact support to appeal a suspension. Instrict will review appeals in good faith but retains final discretion over account status.

7. Community Features

Instrict may include community posts, comments, and similar features scoped to your campus. You agree not to post content that is abusive, harassing, illegal, or that violates the rights of others. Instrict may remove content or restrict accounts that violate this.

8. Cancellations, Refunds, and Disputes

- Orders may be cancelled before a vendor accepts them; once accepted, cancellation may not be possible or may be subject to a partial charge to cover vendor/rider costs already incurred.
- If an order is not fulfilled correctly (e.g. wrong or missing items, non-delivery), contact support through the in-app Help button. Instrict will review the order, wallet, and delivery records to determine an appropriate resolution, which may include a refund, credit, or partial payout adjustment.
- Refunds, where approved, are processed back through Paystack to your original payment method, subject to Paystack's processing timelines.

9. Platform Availability

Instrict is provided on an "as available" basis. We do not guarantee uninterrupted access, and features, fees, and supported campuses/zones may change as the platform develops. We will make reasonable efforts to notify users of material changes.

10. Limitation of Liability

To the maximum extent permitted by law, Instrict is not liable for indirect, incidental, or consequential damages arising from your use of the platform, including delays, order errors caused by a vendor or rider, or third-party service outages (including Paystack or Firebase). Instrict's total liability for any claim relating to a specific order is limited to the value of that order.

11. Changes to These Terms

We may update these Terms as Instrict grows. We will update the effective date above and, for material changes, notify users through the app. Continued use of Instrict after changes take effect means you accept the updated Terms.

12. Governing Law

These Terms are governed by the laws of the Federal Republic of Nigeria. Any dispute arising from these Terms or your use of Instrict will be subject to the jurisdiction of the courts of Nigeria.

13. Contact Us

- Email: instrictmarketplace@gmail.com
- In-app: Help/Support button available in the student, vendor, and rider portals.
